The late Samuel Coit, well
known here, was one of the original
organizers of THE MUTUAL LIFE IN-
SURANCE CO., of New York. At the
time of his death he held policy No.
135, which was originally written for
only \$3,000. There were \$5,700.00 di-
vidends added to this policy during his
lifetime, of which he drew and used
during his life \$2,399.09, leaving a bal-
ance of \$3,301 in dividends which were
added to the policy and paid at his
death, his heirs thus receiving in cash
\$6,301, or more than double the amount
of the original policy. If Mr. Coit had
used no dividends during his life his
estate would have received \$8,700.09, or
nearly three times the amount of the
original insurance. What other com-
pany can show such a record? Mr. Coit
drew out and spent in his lifetime di-
vidends amounting to four fifths of the
face of his policy, and his heirs at his
death received in cash more than
double the amount of the face of his
policy.

S. H. NEWMAN, Mutual Life.

The undersigned desires to announce
to those who are not already aware of
the facts that he is the district agent of
the Mutual Life Ins. Co., of New York,
having resided in this city for the past
32 years, this reputation for fair dealing
has been fully established. Persons
wishing life insurance will be
benefited by his experience and in-
tegrity and by insuring with him can
depend upon his representations in
selecting from the many different
plans the one that will best suit their
conditions.

Mrs. Appointments

WASHINGTON, September 17.—The
president has appointed George D. Pet-
tit, a Pittsburg newspaper man, as
consul at Düsseldorf, Germany. Also

ment: A. Clark Tenner, of Canton, O.,
assistant commissioner of Indian af-
fairs; Jacob B. Blair, Salt Lake, sur-
veyor-general of Utah; Chas. D. Veys,

Wrecked Sailors in Paradise.

WASHINGTON, September 17.—News
of a ship wreck received at the
state department this morning and be-
hind it is the undeveloped story of the
wrecked ship or bark Noratum of Seat-
tle, with a cargo of coal for Panama.
The Noratum went ashore on Easter
island May 27. The crew of fifteen, all
Americans, took to the boats and land-
ed safely. The ship was taken to Valpe-
ríso, and the others decided to stay on
the island. Easter island is the A-fam-
less Eden of the Pacific, and efforts
have long been made by the inhabi-
tants to induce visiting traders and
sailors to remain. The pick of a wife
is the prize held out, and it is believed
at the department that seven of the
sailors were captured and have al-
ready married and settled down.

McKinley Firm.

NEW YORK, September 17.—A
Washington dispatch to the Herald
says that notwithstanding the reported
assassination of a candidate for post-
master in Hogsheadville, Ga., the pre-
sident's day disposed of a long controversy
over the postmaster in August by de-
ciding to appoint Judson Lyons, a col-
ored member of the republican nation-
al central committee from that state.
Lyons is willing to take the chances if
the president appoints him. It is said
the president received the dispatch
stating the news of the Hogsheadville
attack just prior to his decision in Lyons's
case.

A Postmaster Selected.

GREENSBORO, N. C., Sept. 17.—A
novel method of selecting a postmaster
without recourse to the congressman of
the district was made here last night
and it only remains to be seen whether
President McKinley will agree to it.
The republican party of the city, in a
mass meeting assembled, was called to
determine by ballot the party for the
postmaster selected by an overwhelming
vote B. M. Bridges. Bridges is a
young man, and a very active part
in the late campaign.

New Postage Stamps.

WASHINGTON, September 17.—The
treasury department has been at-
tention to the fact the universal
postal congress, recently in session
here, agreed on a scheme of colors for
postage stamps to be used by all na-
tions in the postal union. The color of
the United States stamp, as agreed
upon is carmine, so that the proposed
change to green will not be
made.

Call for Troops.

HAZELTON, Pa., September 17.—
Word was received here at 2:30 this
morning by telephone from the night
watchmen at the Lehigh and Wilkes-
barre mine at Cranberry, 3 miles from
here that strikers were breaking into
the power house owned by Edward
Turnbeck, one of the deputies of last
Friday. The message called earnestly
for troops.

The Italian Ambassador.

WASHINGTON, September 17.—Re-
peated rumors that Baron Fava, the
Italian ambassador to the United States
is to be recalled by the Italian govern-
ment are revived. Baron Fava is in-
sane, and no confirmation of the re-
port can be obtained. He has been
severely criticized by certain Italians
living in this country.

A German Grievance.

BERLIN, September 17.—This coun-
try has a new grievance against the
United States on account of the deep
design which, according to the Vos-
sische Zeitung, President McKinley is
planning for the annexation of Samoa,
which the paper declares is German
and must always remain German.

Operations Resumed.

HAZELTON, September 17.—The
Parades collieries started up yesterday
and are working today without mo-
lestation or trouble of any kind. As
already intimated, these resumption are
thought to be the key note to a gen-
eral resumption. This morning the
Beaver Meadow colliery also resumed.

Bank of England Support.

LONDON, Sept. 17.—The only sup-
port the Bank of England has for its
silver proposal is from several news-
papers in the Midlands, where the
scheme is endorsed. All the other
English press opposed. Prices are not
affected.

A North Pole Pigeon.

LONDON, Sept. 17.—Dispatches re-
ceived here this morning say one of
the supposed Andre balloon pigeons
is reported to have been discovered at
Yekelsk in east Siberia.

Lion coffee is the best, only 10 cents
per lb. at El Paso Grocery Co.

SCENE OF THE ATTEMPTED ASSASSINATION.

Defective Torpedoes Destroyed.

LONDON, Sept. 17.—For several days
visitors have been excluded from the
grounds of the Woolwich arsenal, ow-
ing to the fact that a large force of em-
ployees has been engaged in destroying
some 400 torpedoes, together with their
fittings and which were recently con-
demned as a result of the reports made
to the lords of the admiralty. These
reports set forth that the movements
of the torpedoes after firing was ex-
tremely erratic, and that on several
occasions they had come seriously near
blowing up the ship from which they
had been discharged. The missiles are
what are known as the Whitehead
patent, and designated in naval parlance
as "mark I, star" and "mark II,
two star." The approximate cost of the
torpedoes was \$2,500 each, and hence
their condemnation means the virtual
throwing overboard of a round million
of dollars. A Birmingham firm of am-
munition manufacturers made an offer
to purchase the entire lot at face value,
with a view to making a resale to a for-
eign nation whose name has not been
disclosed, but the lords of the admir-
alty decided that such sale would in-
volve the revealing of the naval de-
partment of such nation of the secret
mechanism by which the balance
chamber of these torpedoes are ar-
ranged, and the offer was refused.
Hence the secret was regarded as
worth a million of dollars.

After the Lynches.

INDIANAPOLIS, September 17.—Mer-
rill Moores, deputy attorney general of
Indiana, was dispatched to Ripley
county, the scene of the lynching on
Wednesday night, as the special repre-
sentative of Governor Mount, as well
as of the attorney general's office, to
inspect the situation and report at
once. The following telegram has been
received from him by the mayor: "A
quiet. No fear of further outbreak.
Rioting all from Ripley county. Judge
New has charged the grand jury to in-
vestigate and the jury is at work. I
shall assist Prosecutor Connelly to day."

Dictator Barrios Overthrown.

SAN FRANCISCO, Sept. 17.—The
reign of Reyto Barrios as dictator of
Guatemala is at an end. Private ad-
vices received from Ocos by telegraph
state that the quiescent has fallen.
Rioting and hard fight the little
garrison succumbed and the revolu-
tionary became masters of the situa-
tion. Pro-pro Morales was made chief
of the rebel forces, and was proclaimed
as such by Ecuador, with the ap-
proval of the other forces of the revolu-
tion. This means that Morales will be
Guatemala's new president.

Another Fatal Railway Collision.

ST. LOUIS, September 17.—A
passenger train and a freight train on the
Wabash met in a head-on collision at
2:45 a. m., at Keytville, Mo., killing
two men and seriously injuring two
others. The dead are: Wm. Zales,
postal agent, O. B. Smith, fireman on
the freight engine. Both of the in-
jured men are tramps. Both engines,
the mail car and two box cars were
wrecked. The freight was late a min-
ute in reaching the switch where it
was ordered to wait for the passenger
train.

Yellow Fever Subsiding.

NEW ORLEANS, September 17.—A
special from Ocean Springs, says there
are no new cases there and the sick are
doing nicely. Surgeon Washin is re-
covering rapidly. At Bellefontaine,
Miss., the detention camp it is stated
that parties desiring to leave the coast
can do so after ten days there.

Cuba's New President.

HAVANA, September 17.—The re-
ported election of Dr. Domingo Mendez
Capote as president of the republic of
Cuba is officially confirmed.

Fatal Fire.

CHATHAM, Ont., Sept. 17.—A trage-
dy was enacted at Port Alma on Lake
Erie this morning whereby three
daughters of Preston Howard, a well
to do farmer, lost their lives. About
3 o'clock Mr. Howard awoke suffocating
and found his house in flames. He
escaped with his wife and three
sons through windows. One of the
three girls got out of the house
but rushed back and in attempting to
save her sisters, sacrificed her own
life. Two of the boys were badly burn-
ed. Mrs. Howard also rushed into the
flames to save her daughters and was
seriously injured.

THE LYNCHING.

Silver Camp Meeting.

SPRINGFIELD, O., September 17.—
A train load of five hundred people
from Lima will be here tomorrow and
another from the west over the Pan
Handle. It is expected that Cincin-
nati and vicinity will send a good sized
delegation tomorrow afternoon to
stay over Sunday. It was decided this
morning to begin speaking at 10
o'clock. General A. J. Warner of
Marietta has been made chairman.
The first speaker was Mrs. Elizabeth
Tillinghast of Cleveland, followed
by Hon. T. B. Tarsney of Detroit,
Judge J. F. Tarrill of Covington, Ky.,
Hon. Chas. C. Hartman of Montana,
Miss Nellie Robinson of New York and
Hon. Chas. A. Towns, of Duluth, Minn.
A dispatch has just been received here
in which Mr. Bryan says he does not
feel at liberty to attend the meeting
because he has not been invited by the
regular party organization, that is the
state committee. Repeatedly it has
been charged that the state committee
is throwing cold water on the project.

Typhoid on the Klondike.

SAN FRANCISCO, September 17.—
John Stibley Webb, the attorney at
Washington, D. C. for the Alaska
Commercial company, who made a
visit to the Dawson and Klondike min-
ing district for the sole purpose of in-
forming himself of the conditions of
living there, and in Alaska generally,
has returned, and in speaking of what
he saw, says: "Development work on
the creeks was followed by washing
down into river at Klondike and
thence into the Yukon above Dawson,
large quantities of filth above refuse.
Sweeping as it does by the very doors
of the inhabitants of Dawson it is no
wonder there should be sickness and
death. In the little cemetery there
lay no less than 60 victims of typhoid
fever, and now the number has no
doubt been increased considerably.
Drinking water is very bad, and this
adds to the sickness."

Human Fragments Found.

GALENA, Kan., September 17.—
Search for the bodies of the victims of
the Stilleback family in the shafts of
the abandoned mines still goes on.
Hooks lowered into shafts near by
brings about the vest and other clothes
of a woman with flesh sticking on them.
The people in the vicinity are greatly
excited. Governor Leedy has been no-
tified of the case.

Fighting Near Havana.

HAVANA, September 17.—The re-
volution is strong again in the pro-
vince of Havana around the capital.
Within sight of Monagua, a suburb
of Havana City, an engagement took
place Wednesday. All details are
carefully concealed by the Spanish au-
thorities. A report in circulation is
that the Spanish troops were badly
defeated.

Salvation Colonists.

SAN FRANCISCO, September 17.—
Commander Booth Tucker of the Sal-
vation Army has arrived from New
York. The object of his visit is an
investigation of the proposed coloniza-
tion scheme. He will leave for Colo-
rado on Monday where he expects to
establish the most important cen-
tral colony of the United
States.

Opposed to Seth Low.

NEW YORK, Sept. 17.—The repu-
blican county committee is unanimously
opposed to any endorsement of Seth
Low for mayor. This stand was taken
at a meeting last night. W. M. K.
Olcott, a young man of 37, and at
present district attorney, will probably be
the republican candidate. At least
Senator Platt says so.

The Fever Worse.

NEW ORLEANS, September 17.—One
death and three new cases of genuine
yellow fever and at least a dozen un-
der investigation up to noon is the
serious health record for today, the most
critical day since the fever struck the
city.

The Markets.

NEW YORK, Sept. 17.—Silver 56 1/2;
lead 4.00; wheat 1.05; Mexican dollars
41.

Teddy O'Rourke, a suave young man
who nightly disturbs the ivories of a
planer in a local Maison de Joye, is
in the county jail on charge of embaz-
zlement. The allegation is that he was
given by the Cyprians \$14 in Mexican
money to get changed. He blew it in
with a good time and when the time of
reckoning was at hand he was in dis-
pair.

Rev. Dr. S. M. Martin, the Chris-
tian church revivalist, arrived this
morning from the San Diego where
he has been successfully laboring, and
will open a series of revival meetings
for the Christian church people in the
store premises formerly occupied by
T. A. Springer, corner of Texas and
St. Louis streets tomorrow night.
